COORDINATED AGENCY RECOVERY EFFORT

C.A.R.E. is a multi-agency public outreach program to disseminate information about recovery efforts and potential storm impacts following the August/September 2009 California wildfires.

February 18, 2010

FOREST ROADS PREPARE TO CLOSE DUE TO STORMS, EVACUATIONS POSSIBLE, NO PARKING RESTRICTIONS ENFORCED

The Los Angeles County Department of Public Works has announced that based on forecasted weekend storms, it intends to close public access to all County roads within the Station Fire burn area as of tomorrow, Friday, February 19, 2010, at 12:00 noon.

Public Works will confirm the road closures tomorrow (Friday) when the latest forecasts have been analyzed. The roads will reopen after the threat of rain has passed and safety inspections of the roadways are completed.

As a result, the Angeles Forest Highway, Big Tujunga Canyon Road, and Upper Big Tujunga Canyon Road, will be closed to all traffic except emergency vehicles and DPW personnel. Residents living in the burn areas will not be permitted to use the roads until the closures are lifted.

Due to the forecasted storms, the Foothills Incident Unified Command is advising residents in at-risk burn areas that evacuations may also be ordered.

'No Parking During Rain Event' restrictions will also be enforced on posted streets in La Canada Flintridge and La Crescenta. Parking will not be allowed on those streets during the entire rain event.

Residents are urged to continue to monitor news broadcasts, or visit the CARE website at www.dpwcare.org for further updates as this series of storms approach.
